## Seneca County Child Poverty in New York

Pre-pandemic data indicates that one in five children in New York — nearly 792,000 children — live in poverty, with our 15th Congressional district holding the nation's highest child poverty rate. Impoverished children suffer worse health outcomes in many indicators, including increased incidence of infant mortality, low birth weight, asthma, elevated blood lead levels and obesity. Children who grow up poor are also more likely to become incarcerated, experience parental incarceration and become poor adults. Child poverty in New York is an urgent crisis, costing our State approximately \$55,102,000,000 every year.

## Child Poverty in Seneca County ii

- **957** children live in poverty in Seneca County.
  - 14 percent of children in the county live below the poverty line, as compared to New York State's overall child poverty rate of 20 percent.
